This handbook is for use only by members of the Forest Service, U.S. Department of Agriculture.

It shows the organization of the Forest Service, with the addresses and telephone numbers of the main field offices and units. It lists the personnel chiefly responsible for the various units, key functions, lines of work, and research projects. This is not a directory of all personnel. Listings are as of October 1, 1963.

The first person named for each unit, function, project, or installation is the one in charge. Titles are omitted unless needed to show the relation of individuals to the organization, or to indicate specific duties.

The express address of a Ranger District is the same as the headquarters address unless otherwise shown.
